

# FBC KOS GREECE

## THE SPOT

FBC KOS – (Big Blue Surf Center) is directly on the beach at Psalidi on the north east coast of Kos, where the island's best freeride conditions can be found. The wind is side/sideoffshore from the left, and usually lighter in the mornings, when beginner courses take place. The wind blows directly from the beach with no wind shadow and intensifies through the day giving way to sensational slalom blasting with swell/chops up to 1 m on the outside. The proximity of Turkey (15 km across the water) creates a wind funnel system, producing stronger winds than other spots on the island. A natural reserve upwind from the spot and the total absence of buildings guarantee the most constant possible winds to all. The sailing area is large and very safe, with a dedicated baywatch and rescue service free of charge. In other words: a truly ideal spots for all levels and aspirations, all day long.

## THE CENTER

The center is completely new for Summer 2011 and will also offer kitesurfing and SUP! It is very well equipped and organized with Fanatic, North Sails and North Kiteboarding equipment and is situated on the beach in front of the Hotel Natura Park Village. There are extensive views of Turkey, and stunning scenery whilst windsurfing or kite-surfing. FBC Kos is very family friendly, and many of the guests and the team come back year after year!

## KOS ISLAND

The perfect family relaxing freeride vacation, on an island that has everything you can hope for...and some more.

Kos is the third biggest island of the Dodecanese and home of Hippocrates. It not only offers a big number of beautiful and safe sandy beaches but also a great history and many different sights. Its landscape is perfect for trekking and mountain biking, and the many different bike-ways let you discover the island's hidden beauties of nature. Kos has more than enough diversity to offer – it is only a matter of having enough time apart from the water...
