THE SPOT

FBC Martinique (Windsurf Club Martinique) is located at the Pointe du Bout on the tip of a semi- island facing the Capital, Fort de France. The center is in the peaceful grounds of the Hotel Carayou set in impressive palm tree gardens directly at the waters edge. The north east trade winds blow on/side-on from the left and at 90 degrees to the whole sailing area. The main wind period is from the beginning of December until the end of April, but FBC Martinique is open all year round and June and July also offer some of the best and windiest days of the year. There is a small launching area in front of the center with waist high flat water and soft sand under foot. This area is slightly protected from the wind and is excellent for entry level and kids. Outside this area is where the fun really begins! The sailing area is large and safe with easy freeride conditions. You sail from the center in the direction of a deep green mangrove. Just before this (about 400 m from the center) is a shallow (waist high) sand bank, perfect for waterstart and gybe training, or even for taking a well deserved break! A long wooden jetty runs from the center building out to the sailing area and it's a great place for watching the action and taking pictures as your friends fly past!

THE CENTER

The center is stocked with Fanatic boards and North rigs and is very spacious with a chill out deck, surfers bar and changing facilities. The rigging and preparation area around the center is in grass and mostly shaded. The water is warm and so is the wind – you can't ask for much more! Also on offer for you: kitesurfing instruction, wakeboarding, sea kayaks and more! If all of this is not enough to make your experience in Martinique one to remember, then leave the rest to the manager Guillaume. We guarantee you will not want to leave this magic spot behind!

MARTINIQUE

Paradise found: great vibes, comfort, palm trees, Ti Punch, chilling and a whole mangrove. Just for you!

Martinique "The Island of Flowers" is a volcanic island of true style and incredible diversity. Her coast is varied and breathtaking, from the rugged coastlines of the Atlantic side to the white sand beaches on the Caribbean side. Tropical rainforests, mangroves, waterfalls, plantations, wetlands, rolling green hills and a riot of colours await you. With warm weather and water throughout the year, and the superb cuisine of African influence and Caribbean ingredients its' charm is hard to deny.
